

Bamwood Broom Handles

Bamwood handles are manufactured from 65% bamboo and 35% reclaimed hardwood. Bamboo is stronger than wood, releases 35% more oxygen than wood and grows one-third faster than wood. Bamboo is self-generating, so it doesn't need to be replanted.

A. Threaded End Broom Handle

Natural Bamwood handle. Standard thread. 15/16" dia.

No.	Overall Length	Each
BRU 121	54"	
BRU 122	60"
